A horizontal banner at the top of the slide features a sunset scene with a bright sun partially obscured by clouds, casting a warm orange and yellow glow across the sky.

Independence

We symbolise independence

- As an owner-managed family enterprise we determine direction and speed of our development ourselves.
- We do not think in financial quarters, instead, in generations.
- Furthermore, future employees should also be allowed to work in a solidly-based enterprise.

We epitomise performance efficiency

- The customer stands at the centre of our thinking and actions.
- We do not sell products, instead, we actualise customer wishes to customised solutions.
- Long-standing, well-trained staff secure our competitiveness through their skills

We represent engagement

- Every year we facilitate successful entry for young people into the professional world through vocational training provided by us.
- In this way we secure our own requirement for well-trained employees and additionally make an important contribution to the entire transport industry.
- We support, through many years of dedicated militia activity, the Swiss freight forwarding association SPEDLOGSWISS.

We stand for sustainability

Our environment is important to us! Thus, we opt for, whenever possible, ecological means of transport such as combined transport (rail/road) and the Rhine barges, but also on electric and biogas-powered vehicles as well as resource-saving paperless solutions (e-freight and customs clearance).

We nurture long-standing and reliable partnerships with our customers, foreign partners, suppliers and statutory authorities.

Quality

[Back to overview](#)

Subsequent to successful certification in 2013, our enterprise is once again considered to be a guarantor for safety, credibility and quality in the international movement of goods.

Our IT expertise

**Intelligent and secure
Information Technology**

Established standards

**Flexible responses to
customer wishes**

**Projects with individual
interfaces**

Compliance

Lamprecht Transport Ltd. has been aware of its responsibility for generations. It is committed to a legally compliant and socially responsible corporate governance.

Our moral and ethical standards for the interaction and cooperation with employees, suppliers, partners and customers are expressed in our Code of Conduct.
