

CERTIFICATE

With this certificate Swiss Climate Ltd awards

Lamprecht Transport Ltd. Group

the quality label

Swiss Climate Ltd, owner of the Swiss Climate CO₂ label, confirms the following:

The greenhouse gas inventory (carbon footprint) was established according to ISO 14064-1 standard and follows the guidelines of the Greenhouse Gas Protocol. The above mentioned company has established a climate policy, identified its risks and opportunities with regard to climate change and knows its most relevant emission sources. A CO₂ reduction objective has been defined based on concrete reduction measures. Unavoidable emissions have been offset with a high quality climate project. The commitment of the company is communicated internally and externally in order to inform key stakeholders and raise awareness.

Compliance with the guidelines for certification of the label has been audited and confirmed by neosys AG.

Validity of the label, last audit and registration number:

Bern, 08.10.2025

A handwritten signature in blue ink, appearing to read "Othmar Hug".

Othmar Hug
CEO, Swiss Climate AG
